

The Campus

The Plan above will give you an idea of how the campus is laid out. The campus is extremely compact, with many of the buildings inter-connecting. It is built around a main Parade which forms a central spine with Norwood House at the east end and Wessex House at the west end. The Library and Learning Centre is the University's central hub and all buildings are identified according to their east/west position in relation to it. Odd numbers in building names indicate that they are located on the northern side of the Parade, on the same side as the Library, and even numbers are on the southern side. The University has five floors or 'levels'. The main pedestrian Parade is Level 2.

Car Parking

Car Parking at the University is limited. West and East car parks are both pay and display facilities for visitors. West car park provides disabled access to the Parade.
